CONTENTS

PARTS 1 & 2—JANUARY 1944

PAGE

Phases of maturation and fertilization in human ova. By W. J. HAMILTON 1

Transuterine ('internal') migration of the ovum in sheep and other mammals. By J. D. BOYD, W. J. HAMILTON and J. HAMMOND, Jr. 5

The re-innervation of muscle after various periods of atrophy. By E. GUTMANN and J. Z. YOUNG 15

The mechanism of rotation at the first carpo-metacarpal joint. By R. WHEELER HAINES . 44

The anatomical basis of cortico-striate connexions. By P. GLEES 47

Experimental studies on the development of the pronephric duct in anuran embryos. By TI-CHOW TUNG and SU-HWEI KÜ 52

IN MEMORIAM: EDWARD PHILIP STIBBE 58

PART 3—APRIL 1944

An experimental study of optic connexions in the sheep. By O. E. NICHTERLEIN and F. GOLDBY 59

Observations on the volume, viscosity and nitrogen content of synovial fluid, with a note on the histological appearance of the synovial membrane. By D. V. DAVIES . . 68

Histogenesis of pituicytes in the chick. By W. M. SHANKLIN 79

Observations on the development of the human vertebral column. By G. M. WYBURN . 94

The surface area of the intestinal mucosa in the rat and in the cat. By HELEN O. WOOD . 103

The patellar index in mammals. By H. HAXTON 106

PART 4—JULY 1944

The lymphocyte content of rabbit bone marrow. By J. M. YOFFEY and JOSEPHINE PARNELL 109

The contribution of the medial fillet and strio-hypothalamic fibres to the dorsal supra-optic decussation, with a note on the determination of the lateral fillet. By P. GLEES 113

Observations on the histology of the choledocho-duodenal junction and papilla duodeni, with particular reference to the ampulla of Vater and sphincter of Oddi. By JOHN KIRK 118

The effect of 1:2:5:6-dibenzanthracene on the lymph-nodes of the rat. By A. LASNITZKI and D. L. WOODHOUSE 121

Post-natal growth changes in the human prostate. By G. I. M. SWYER 130

PAGE

The effect of oestrogenic stimulation on the mangabey prostate. By F. M. P. Eckstein and S. Zuckerman 146

Unusually long pregnancy in a macaque. By F. M. P. Eckstein 147

The inguinal canal in the foetus and new-born. By H. Curl and R. G. Tromly . . 148

PART 5—OCTOBER 1944

A study of the Bantu female pelvis. By O. S. Heyns 151

The evolution and functional significance of the transverse carpal arch of man. By H. Hughes 167

The use of an agar gel in the sectioning of mammalian eggs. By the late D. M. Samuel 173

The behaviour and fate of skin autografts and skin homografts in rabbits. A report to the War Wounds Committee of the Medical Research Council. By P. B. Medawar . . 176

The cranial capacity of the living, calculated automatically by a nomographical instrument. By G. F. Hamilton 200

In Memoriam: D. M. Samuel 204
